

Our Children's Best Opportunity for Success

John and Cathy McGinnity

To Whom It May Concern:

Having been raised Catholic and having had the privilege to receive a tremendous Catholic education I felt it important to give that same opportunity to my children.

Therefore, when it came to placing our sons in school we looked for what could give our children the best opportunity to succeed. As educators, both my wife and I felt it was very important to build a solid foundation to their early educational development. Since moving to Lapeer County we have attended Immaculate Conception parish so we did not have to look very far to start building that foundation. We did review the area schools both public and private. In the end, we selected Bishop Kelley and are comfortable with that decision.

Our children are very happy at Bishop Kelley and have received an education that has meet our expectations.
